

THE JR. HI. SPECIAL

VOL. I. SANFORD JUNIOR HIGH NOV. 7, 1928. NO. 1.

IN MEMORIAM

The Junior High School deeply feels the loss of one of its most promising and much loved pupils. Ainsley Robson-- who departed this life October 22, 1928.

Ainsley was a fine, good boy, and was much loved by all who knew him. We shall miss this link from our school chain; but while the chain is constantly breaking in this world, it is constantly adding golden links to the chain that anchors us to the beautiful world to come. For we are told in the Good Book that, "We have a building of God, an house not made with hands eternal in the heavens." We extend our heartfelt sympathy to the bereaved family and humbly commend them to the All-Wise Ruler, of this beautiful home for comfort in their bereavement.

Yours very truly,

J. Tilden Jacobs, Prin.

Junior High School.

What Price Selfishness.
Unpopular people often
wonder why they aren't
sought after. Probably
the reason is that they
are selfish.

Are you a sponge
"Did you ever notice
how some boys and girls light
resemble sponges? They
go to class every day
and absorb what is poured
over them, but do not
seem to reach out and get.
The only time they yield
anything is when they are
squeezed in a test. Don't
be a sponge."

Our school has a good
volley ball team this year.
They have won two games
out of so many tries.

Come out and back the
teams up. They need that
pop.

MY HEALTH HOUSE.

I am building a house day by day
When I eat, sleep, work and play
My food is the lumber that I use,
And the best materials I must choose.
(Such as milk and vegetables and eggs)
While fresh air furnishes nails and pegs
And sleep, the carpenter, takes them all
To silently fashion each room and hall.

If I build aright, when I am grown
I shall have a house I am proud to own
No need for breakdowns and repairs,
For good material wears and wears.
So I'm building my house day by day
As I eat, sleep, work and play.
Some build for Happiness, some for Wealth
But I'll find both in my House of Health

CLEANLINESS.

A. A bath a day is best:
Bathe at least twice a week.
B. The hair should be washed every two
weeks in pure soft water and pure soap
and dried thoroughly in the sun.
C. Hands and finger nails.
Always wash your hands before meals
Dirty finger nails spread disease.
D. Teeth.
Brush teeth three times a day.
Use own brush.
Rinse mouth after brushing teeth.
Cleans brush and put it in a clean
place.

A stooping body is like a kinked
hose.
Never put off till tomorrow the
milk that is warm today.
Long nights of sleep mean long
years of health.
A regular hour for every meal-
not a regular meal for every hour.
A bath tub is not a finger bowl.
Eat fresh vegetables for 85 years
and you certainly wont die young.
Drink at least six glasses of
water daily.

There are over thirty boys out for basket ball and they are working hard. We are to have two teams according to their weight. Remember the good team we had last year? All the victories? We are to have just as good a team and just as many victories this year.

New uniforms were issued yesterday to the following boys:

Lawrence Wilkins.
Hudson Bester.
Martin Cerecoli.
Malcolm Higgins.
Eatin Campbell.

There are several boys that are working for the extra suit. It is to be given to the boy that makes the best showing in tonight's game.

SPORTS

Our basket ball team has been successful so far this year winning nine out of ten games. We easily won the county championship and are now playing teams from Volusia County. We have defeated three of their strongest teams and tomorrow night we play the strong New Symerna Junior High school on their own court. It would help if some of the student body could go over and pep the boys up.

The girls volley ball tourneyment is over with section three of the seventh grade winning the pennant and emblems for League B, while section four of the eighth grade came out with the honors for League A. The tourneyment was close from the start and these two sections won by only a close margin. Section three of the eighth grade went to the finals and lost only by a few points in the last game. Section two of the seventh grade ran a close second to section three and keep that section uneasy all the way.

All girls of the school are now in a diamond ball tourneyment. The schedule will be placed on the bulletin board today.

The boys base ball tourneyment was won, in the eighth grade by section I. This team lost the championship of the grade.

The seventh grade tourneyment was won by section I. Section two gave them good hard competition.

There are eleven teams entered in the boys volley ball tourneyment. The schedule will be published today.

PICTURES YOU OUGHT TO KNOW.

The Fog Warning--by Winslow Homer.

We are pleased to notice the progress that a good many of the pupils of Junior High are making in their study of art. Some who had had a limited knowledge of even the fundamental principles, now have a broader understanding of what art means.

See if you can answer these correctly in five minutes.

- What are the primary colors?
- What is the complementary color of red?
- What is a vanishing point?
- What does "perspective" mean?
- What two colors mixed together make green?
